The Governor's Budget Published on December 15, 2008

This addendum includes the December 15 changes to Governor's budget request for the Health Resources Division. This addendum explains the differences between the executive budget released November 15, 2008 as reviewed and evaluated in the Legislative Budget Analysis 2011 Biennium, Volume 4 and the December revisions.

The Health Resources Division (HRD) 2011 biennium revised budget request increases 16.3 percent compared to the 2009 biennium, 0.6 percent lower than the budget published in November. General fund was reduced \$2.4 million (total funds reduction was \$6.6 million). The reduction is due to elimination of new proposals for:

- A 1 percent annual provider rate increase
- Expansion of dental services to low income persons, including Medicaid beneficiaries
- Funding to implement a federal reimbursement change for therapeutic foster care and therapeutic group homes

The following tables and narrative discuss the differences between the November 15 and the December 15, 2008 budgets. The next table, Executive Budget Reconciliation, shows the November 15th budget submission and the executive budget revisions. The final table is the entire list of present law and new proposal requests included in the Governor's December 15, 2008 budget.
